DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by publication entitled "A Interactive Database End User Facility For The Definition and Manipulation Of Forms by A.H.F. Laender et al.

As per claims 1 and 26, Laender et al. disclose defining a relational, selecting one of the views and creating at least one report(see at least the abstract and fig. 2 and sec. 2.2).

Allowable Subject Matter

Claims 2-25 and 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
